About This Game

Set in the not-so-distant future, tension between a bold North Korea and the United States have gone beyond their breaking point.

In *Heavy Fire: Red Shadow* players lace themselves up in the tattered combat boots of Sgt. Will, who narrowly survived a North Korean missile attack on Guam designed to knock out its defenses, and now finds himself almost single-handedly trying to repulse a large-scale North Korean raid.

Step onto the unforgiving battlefield, establish a beachhead, and holdfast behind a turret-mounted machine gun. A brutal and unceasing onslaught of enemy forces will attempt to flank and eliminate Sgt. Will from every angle as he and a few surviving comrades rain hell upon anything that crosses their sights.
